**Instructions for filling in,  
printing and sending the form in  
PDF version**

**Access to online forms**

Adobe Acrobat Reader must be integrated into your web browser to allow you to complete the forms online.

Users may sometimes have difficulties printing or even opening online forms. If this is the case, try saving the form to your hard drive (select «Save As» or «Save Link As» by right-clicking while hovering on the hyperlink to the desired form) and then opening and completing the form locally using Adobe Acrobat Reader.

**Fill in the form**

Open the form using Adobe Acrobat Reader or Adobe Acrobat. Acrobat Reader will allow you to fill in, print, save and send the completed form by e-mail.

Once the form is open, left-click on a field and insert your text. Once you have entered your information, click outside the field you have just filled out or press the «tab» key to go to the next field. To tick the boxes, simply click on the box, which will fill it with an «X». To remove the «X», click on the box again.

Once the form has been filled in, make sure that all text is visible in the printed document. Inserting paragraph returns with the «enter» key may cause the text to move outside of the available space, causing it to disappear from the form. To check that the contents of a field are visible, simply press the «tab» key or click somewhere outside the field. If the inserted text is not visible, try deleting some paragraph returns or re-inserting the text.
