Title: <i>Intercomprehension for Language for Specific Purposes</i>			
Short description: Intercomprehension means that, each speaking his own language, you have the ability to understand the other, who speaks a similar language. The development of multilingualism through the practice of intercomprehension, a method that enjoys a good university experience in several Western countries, allows to facilitate exchanges and communication between the actors of the academic network (students, teachers,			

administrative staff). Based on the idea of having partial competences that allow learning several languages thanks to their common origin (Latin, in the case of languages spoken in UNITA alliance universities), the strategies they use for intercomprehension respond to current realities, while establishing equality between languages.

The BIP program offered by WUT aims to initiate and familiarize with the intercomprehension of Romance languages by discovering and using the main strategies of this learning method. The aim is to develop intercomprehension skills, both written and oral, to stimulate metacognitive strategies and intercultural dialogue.

At the end of the course, students will learn the basic principles of intercomprehension, as well as the fundamental ones. They will also be able to apply these principles and strategies in real communication situations in their field of study.

Proposed schedule:

- 6 hours of on-line courses (3 hours on February 27-28 and 3 hours on March 13-14);
- 25 hours courses *in situ* (at the West University of Timisoara: March 27-31);
- cultural visits in Timisoara and the neighborhood in the week of *in situ* activities, for practicing the method in effective communication situations.

Invited guests/speakers/experts (if any):

Elisa Corino, Sandra Garbarino, Géraldine Lesparre, Alice Fiorentino, Sarah Mantegna, Roberto Merlo.
