

# LIP-PC2S

## Inter-university Laboratory of Psychology - Personality, Cognition, Social Change

EA 4145 - UGA / USMB

**Faculty (USMB):** UFR Lettres, Langues et Sciences Humaines

**PhD School:** Cultures, Societies, Territories (CST), Engineering PhD school for Health, Cognition and the Environment (EDISCE) and Human, Political and Territorial Sciences (SHPT)

Located on the Chambéry and Grenoble sites, the Inter-University laboratory of Psychology - Personality, Cognition & Social Change (LIP-PC2S) is a research unit dedicated to analysing cognition, behaviour and human interactions in their different contexts. LIP-PC2S has experimentation areas, psychological, physiological and behavioural measuring tools and advanced statistical data processing tools.

The research methodologies are mainly quantitative (experiments, surveys). The pertinence of application of the research carried out at LIP-PC2S is high in the fields of (i) psychological adaptation to material and social environments, and (ii) mental health.

## Research themes

LIP-PC2S research work focuses on 4 themes:

- Clinical Psychology and Cognitive Processes
- Social Cognition
- Prevention
- Risk and Adaptation to Changes

## Networks and partnerships

### Main collaborations

- Grenoble Academy
- Grenoble University Hospital
- Oncology pole of Lyon Auvergne Rhône-Alpes (CLARA)
- Metropole Savoie (Chambéry) Hospital
- Regional Administration for Work
- Santé Publique France
- Grenoble Neurosciences Institute
- Armed Forces Biomedical Research Institute
- ABC Psychotrauma network

## KEY DATA\*

- 25 researchers and professors
- 3 administrative and technical staff
- 30 PhD students and post-doctoral students

\* academic year 2023-2024

## Skills and expertise

- Developing protocols for experimental research and data processing
- Managing quantitative and qualitative surveys
- Analyses and decision support in the field of human resources and social and clinical psychology
- Designing and implementing interventional research protocols
- Enhancing and communicating on international scientific research
- Université Savoie Mont Blanc Research, Experimentation and Expertise Unit: Wellbeing and Health Consultation Unit (called ABISA)
- Technical platform for experimental psychology
- Clinical measurements, self taken or not (scales and tests), survey and questionnaire methods
- Experimental behaviour measurements (performances, decision making, taking risks and behavioural disorders)
- Physiological measurements (investigating the autonomic nervous system and viscerosception, stress reactivity index, cardiac variability, electrodermal activity, electrogastrography, biofeedback)

## Main international relations

- Universities of Louvain (UCL), Liège (ULg), and Bruxelles (ULB), Belgium
- Universities of Genève and Lausanne, Switzerland
- Universities of Boston, and Southern California, USA
- University of Swansea, UK
- University of Sunshine Coast, Australia
- University of Lava, Canada
