# ACCOMMODATION IN FRANCE

## HOW TO FIND ACCOMMODATION

Being registered at the university does not mean you will automatically get an accommodation in a student hall. Services are at your disposal to help you find your accommodation:

• **University residences (CROUS):**

Consult the accommodation possibilities in residences for students on the 3 campuses: [www.crous-grenoble.fr](http://www.crous-grenoble.fr)

**For students participating in an exchange program:**

You may apply for an accommodation in a university residence when you apply to the university (online application)

**For students who are not part of an exchange program:**

From abroad, you can directly contact the residences before mid-June : [logement.clous-smb@crous-grenoble.fr](mailto:logement.clous-smb@crous-grenoble.fr)

**Be aware that a request doesn't mean that you will get an accommodation!**

• **Lodging possibilities in the private sector** (studio, private residence, colocation, homestay...):

- In Chambéry/Bourget-du-Lac :

- In Annecy :

**WARNING:** you must find an accommodation before your arrival in France, as on September, all the accommodations will already be occupied.

## THE 1ST MONTH'S EXPENSES:

• Generally, when you rent a room/flat, the owner will ask you **to pay a guarantee (approximately one month's rent)**. You will get it back at the end of your stay if you leave your accommodation as it was.

• Whatever the type of accommodation you are going to occupy, **an INSURANCE POLICY for renting a property is obligatory** to insure your accommodation in case of fire, explosion, or water damage... Cost between 30 and 100€ per year. You can purchase a home insurance from a bank or insurance company.

• Before you can rent an accommodation in France, the rental agency or landlord will ask you to provide a rent guarantor, a third party who agrees to pay your rent if you do not. In France, it is customary for a potential tenant to ask a parent to be their rent guarantor. If you do not have any family or close friends in France to fulfill this role, and the agency or landlord requires you to provide a rent guarantor, the French government offers a free alternative solution for 18 to 30 (included) years old students : the VISALE service. ([www.visale.fr/#!/visale.locataire](http://www.visale.fr/#!/visale.locataire)).

• Depending on your accommodation, don't forget to add: **electricity, water, gas and/or Internet costs...**

## ACCOMMODATION ALLOWANCES

These **state subsidies**, or financial allowances, make it possible to reduce the monthly rental price (except for the first month). Attribution depends on the characteristics of your accommodation and on your personal situation. To make an evaluation: [www.caf.fr](http://www.caf.fr)

**To get this financial allowance, apply online:** <https://www.caf.fr/allocataires/>

**You will need to present the following documents:**

- a statement from your landlord attesting your lease,
- full bank account details. This subsidy can only be transferred on a French bank account,
- A certified translation in French of your birth certificate,
- if you are from a country in the European Economic Area\*: a national identity card OR family record book OR a passport OR residence permit,
- if you come from a country outside the European Economic Area\*: a currently valid residence permit ("carte de séjour").

It is better to have your administrative documents translated into your country: it will cost you less!

## GOOD TO KNOW:

Dial +33... before calling a French number

If you want to buy a French SIM card, don't forget to unlock your mobile/cellphone before coming to France, it will cost less!

## SOCIAL SECURITY:

### • [Students from a member state of the European Economic Area \(see p.3\):](#)

Before your arrival, apply for your **European Card of Health insurance (free and obligatory)** from your affiliated national health insurance provider. This card is **free and compulsory** for registering you at the University. When you visit a doctor or a specialist in France, **you have to pay your consultation**. It will be then - **partly (70% on average) - reimbursed** by the social security, under the French social security system reimbursement terms and conditions. Having the card doesn't mean you will be entirely reimbursed. The remaining part of healthcare expenses can be covered by a complementary health insurance, called a « mutuelle ».

### • [Students from outside the European Economic Area \(see p.3\):](#)

You have the obligation to become affiliated to the French students social security, before your registration at the university on the website AMELI. It is free of charge. (<https://etudiant-etranger.ameli.fr/#/>)

When you visit a doctor or a specialist in France, you have to pay your consultation. It will be then - partly (70% on average) - reimbursed by the social security, under the French social security system reimbursement terms and conditions.

> The Students from Québec, upon presentation of the form SE401Q-(102 or 106), benefit on the spot from a coverage of their healthcare costs.

## COMPLEMENTARY INSURANCE:

In all cases, medical cares are partly reimbursed by the French social security. We advise all students to buy a **complementary insurance to cover all your health expenses**, especially in case of hospitalisation. **This IS NOT OBLIGATORY BUT HIGHLY RECOMMENDED**: without this covering, the costs remaining at your expense can be very high. Note that hospitalisation or dental cares are very bad reimbursed by the social security. Not having such a cover is risky. Variable price: between 5 and 35€/ month. You can subscribe to a mutual insurance company of your choice or apply for complementary health insurance (<https://www.ameli.fr/assure/droits-demarches/difficultes-acces-droits-soins/complementaire-sante/complementaire-sante-solidaire>). **Student mutuals: SMERRA ([www.smerra.fr](http://www.smerra.fr)) et LMDE ([www.lmde.com](http://www.lmde.com)).**

**PLEASE NOTE** that this insurance **does not cover for the transport costs in case of a skiing accident** (which can be several thousand euros). It is recommended to get the "Assurance Neige" when you buy your ski pass.
